Jamie Smart

Jamie Smart author of Bunny versus Monkey is very popular with Key Stage 2 children this year. We had a virtual author visit this term and the Year 6 Reading Champions have written a review.

“We thought the live lesson was really fun. We enjoyed making comic strips and learning how to make the characters. In the live lesson we learned Jamie started making comic strips for newspapers. He taught us how to draw Bunny and Monkey from his comics and how to make our own comic strip. Jamie’s books are super funny and we would recommend reading one.
